Define Problem Statements (Customer Problem Statement Template):

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student struggling to understand complex academic concepts alone.	Get clear, instant explanations for topics I find difficult.	Textbooks are too lengthy and online resources are scattered.	There is no personalized AI tutor available at all times.	Frustrated and overwhelmed by lack of quick support.
PS-2	A self-learner wanting to test their knowledge on a new topic.	Evaluate my understanding through topic-specific quizzes.	No auto-generated quizzes exist for custom topics on demand.	Quiz tools require manual question creation which takes too long.	Uncertain and unable to track my own learning progress.
PS-3	An educator looking to create structured learning paths.	Generate a step-by-step learning roadmap for my students.	Building custom curricula is time-consuming and complex.	AI tools don't offer personalized progression paths for every topic.	Motivated but need smarter tools to support my teaching.
