Empathy Map

SAYS ● I wish I had a tutor available 24/7. ● Explaining concepts to me in simple words would really help. ● I need quick answers, not long search results.	THINKS ● If only there was a smarter study tool tailored to my needs. ● I spend too much time searching instead of actually learning. ● AI could make my study sessions far more productive.
DOES ● Searches YouTube and Google for concept explanations. ● Uses flashcards but struggles to create quiz questions. ● Asks peers for help and joins study groups online.	FEELS ● Frustrated by the lack of instant, personalized help. ● Overwhelmed when multiple resources give conflicting information. ● Motivated when learning becomes structured and interactive.
